

GLUELESS AND CUSTOMISABLE ZIPP-SOLUTION

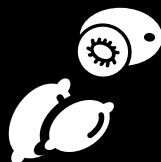

SUSTAINABLE PACKAGING FOR VARIOUS TYPES OF FRUIT AND VEGETABLES IN DIFFERENT SHAPES AND SIZES

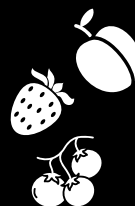

ZIPP YOUR OWN SOLUTION

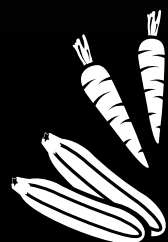

ROUND

OVAL

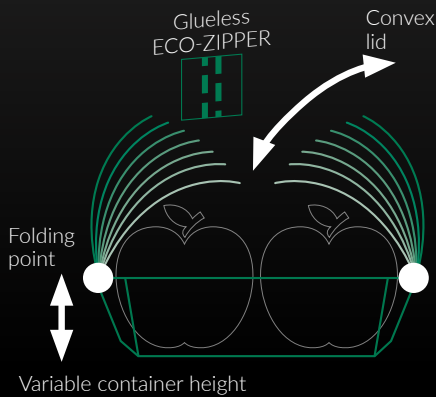

SMALL

LONG OR INDIVIDUAL

+ WRAP closing

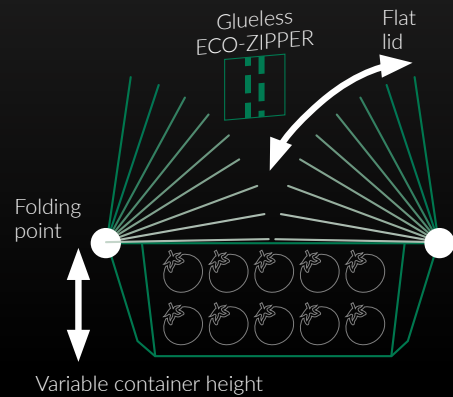

Perfect for fruits and vegetables with a relatively hard texture and skin such as apples, citrus fruits or kiwis.

The cardboard side wings curve over the round fruit to create a stable X-shape without affecting product visibility.

+ FLAT® closing

Perfect for fruits and vegetables with a soft texture and delicate skin, such as cherries, berries or tomatoes.

The side wings close horizontally on the tray, the filling procedure occurs in free form. The creative shape and finish of the wings guarantee perfect product visibility and enhance the effect on the shelves.

BENEFITS OF THE ZIPP TRAY

- New ecological glueless closure – **ECO ZIPPER**
- Excellent visibility of the packaged product despite the cardboard lid
- **Adaptable shape** for different fruits, vegetables and other products
- A tray can be filled with products of **different sizes**
- **One-piece packaging** – single material with easy handling
- **Perfect means of communication** thanks to fully customisable design
- Can be made of **corrugated cardboard** or **compostable grass paper** (40%)

WRAP closing

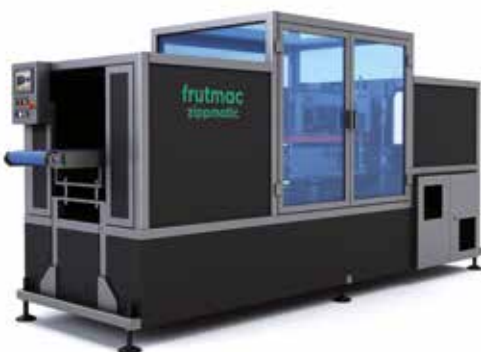

FLAT® closing

THE MACHINE-SOLUTION

ZIPPMATIC

- + Can be used for various products
