INDIVIDUAL
DESIGN

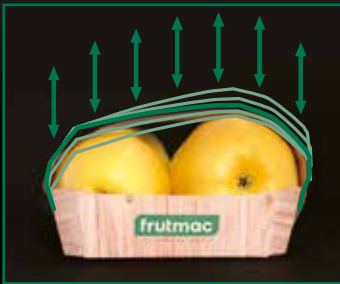

100%
FLEXIBILITY

100%
OPTIMISED IN
COST AND COM-
PATIBILITY

+ TRAY WITH BLITZ-LID

- Adaptable to different fruits/sizes in a pack as the lid is flexibly attached from above
- Trays for 4, 6 and 8 products
- Can be used for different types of fruit, vegetables and other products
- Stable F corrugated cardboard, protects products from damage
- Material made of degradable corrugated cardboard or compostable grass paper (40%)
- Customised tray and lid design
- Economies of scale in tray production when using only the lid as an advertising medium

BENEFITS OF THE BLITZ TRAY

- Tight fixing without friction even with different product/package dimensions (+/-10 mm)
- Customisable design and format
- Flexible format from 120 x 120 x 40 to 260 x 130 x 40 mm (W x D x H)
- Excellent product visibility
- Bottom or top labelling
- Lids quickly adaptable to different foodcontainers/varieties/sizes/marketing promotions

BENEFITS OF THE BLITZMATIC+

- Dual-head mechanics applies the lid gently but firmly enough to ensure "non-substitutability" of the products
- Integrated lid feeder -variable and adaptable to different types of food containers/lids
- No risk of damaging the product during the packaging process or transport
- Up to 54 packs/min. (with 4 pieces tray)
- Plug & Play with a stretching film machine
- Optional: Variokit for more flexibility and adaptability of calibration

THE MACHINE-SOLUTION

BLITZMATIC+

- + Compatible with existing dosing and filling machines (Jollypack)
- + Can be integrated into existing packaging lines
- + Adaptable lid application for different calibrations of fruit/vegetable types and different foodtainers
